

## SeeWise<sup>®</sup>

True Al Powered Smart Factory Solution

Optimizing Manufacturing Processes with Computer Vision SeeWise.AI offers comprehensive, AI-based computer vision solutions that empower manufacturing companies to enhance the productivity, safety, and quality of their manufacturing processes. With SeeWise.AI, manufacturing companies can transform their existing CCTV cameras into intelligent devices and customize them to various ready-touse solutions, ranging from galvanization and weighbridge tracking to floor and operator monitoring. Each solution can trigger real-time responses across manufacturing operations in case of any violations, thereby preventing rework, wastage, or losses. Irrespective of the factory environment, SeeWise.AI can help manufacturing companies minimize downtime, avoid safety incidents, and mitigate product defects that may adversely affect production.
