Welcome to the Intel Supplier Information Portal

(**Enterprise** previously referred to as **Full Enablement**)

This portal provides information for all suppliers that are conducting business with Intel via Ariba Network as an **Enterprise Supplier.**

As part of Intel's ongoing policy to continuously improve efficiency and service quality to suppliers, they are currently implementing the next stage of their overall electronic strategy to move away from paper based transactions. If during onboarding you have business-related questions, those can be sent to ariba-enablement@intel.com or if you have Ariba Network functional questions, those can be sent to intelenablement@ariba.com . Many of your questions may already be answered in the topics below.

Here you will find information for **Enterprise Suppliers**

- **CIF Template**

- **PunchOut Catalog Guide**

- **Short Presentation: Catalog Management**

Please send catalog enablement questions to intelenablement@ariba.com for expert support

INTEGRATION

Ariba Network offers the possibility to integrate with your back-end ERP system via cXML or EDI, for automatic exchange of electronic documents. You can access integration guides from the resource list below. Integrated suppliers should also reference the Ariba Network Supplier Guide to configure a test account; testing is required for cXML and EDI transactions.
